### **3.5mm audio output**

Connect external headphones or speakers.

### **USB-C**

Connect to a computer or adapter for charging or files transfer.

### **Speaker**

Built-in speaker for audio output.

### **Reset**

Reset hole is used to force shutdown the device in case of freezing or crash (not reset to factory settings).

## How to transfer music to the player

1. Connect Y1 player to your computer with the included USB-C cable
2. Short press the button **OK** on Y1 player to confirm "Turn on USB storage".
3. Click "This PC" on your computer's desktop, you will find a USB drive added to the list of devices and drives.
4. Copy the music that has been downloaded on the computer and paste it into this newly added USB drive.
5. After completing the file transfer, click the button **OK** again to turn off USB storage, and press **↵/⌂** to return to homepage.

*Tips: If you turn on USB storage, some apps you're running will stop and may be unavailable until you turn off USB storage.*

## How to charge the player

Y1 player only supports charging with a USB-A to USB-C cable and does not support USB-C to USB-C cables for charging. Therefore, please ensure you use the correct type of cable for charging.

To charge, simply connect the USB-A end to your computer or adapter, and the USB-C end to the player.

Key	Action	Result
	Long press	Long press for 3 seconds to power on / off Long press for 5 seconds to screen off

## FAQ

1) How to shuffle ?

In "Setting - Shuffle", switch the status to "ON".

2) How to get list loop ?

In "Setting - Repeat", switch the status to "List loop".

3) How to view lyrics ?

In the Now playing window, short press  to switch to lyrics display. Short press again to return to the song information display.

4) Can I add a bookmark to audiobooks ?

Yes. When playing audiobooks, long press the key  to pop up the dialog box, and then confirm to add to bookmark. All created bookmarks are preserved in Audiobook --- Bookmark lists.

5) Is there A-B repeat ?

A-B repeat is only available for music

playing. When playing music, long press the key  $\text{⏮}/\text{⏪}$  to activate A-B repeat and generate point A, long press the key  $\text{⏮}/\text{⏪}$  again to generate point B.

*\* If you want to use A-B repeat while playing audiobook, please do not store the audiobook file in the Audiobooks folder. By default, only files stored in the "Audiobooks" folder are recognized as audiobook, while those stored in other folders are recognized as music.*

6) Is the player equipped with an equalizer and how to use it ?

Yes. Y1 is equipped with EQ. You can go to Settings -- Equalizer to select your favorite preset style, or long press the key  $\text{⏮}/\text{⏪}$  to activate the customized EQ.

## Music

Key	Action	Result
	Swipe clockwise	Scroll down or right options
	Swipe Anticlockwise	Scroll up or left options
	Short press	Confirm selected track or option
	Long press	Long press for 3 seconds to power on / off Long press for 5 seconds to screen off
	Short press	Back to Prev-level
	Long press	Activate shortcut menu

### About shortcut menu

Long press the key  in all folders under Music to pop up a shortcut menu for file management:

- **Sort by Songname:** Select the song sorting method as "Sort by Songname".
- **Sort by Filename:** Select the song sorting method as "Sort by Filename".

- **Subdiy. By Album:** Under the Artist category, "Subdiy, by Album" allows you to further categorize the artist's songs by album name.
- **Multi Select--** Select music / file one by one.
- **All Select--** One-click to select all music / files in the current folder.
- **Delete File--** Delete the selected music.
- **Add to Playlist 1,2,3...--** Add selected music to target playlist.

## About the Song Sorting Types

In all song management folders (including All Songs, Playlists, Artists, Albums), you can choose the following sorting options:

### 1) Sort by Filename

- >> A-Z (default): Displays the song's filename (not the song title) and arranges it in the order of 1-9, A-Z.
- >> Z-A: Displays the song's filename (not the song title) and arranges it in the order of Z-A, 9-1.
- >> Create time asc.: Displays the song's filename (not the song title) and sorts it in ascending order of file creation time, with the oldest files listed first and the most recent files listed last.

- >> Create time desc.: Displays the song's filename (not the song title) and sorts it in descending order of file creation time, with the oldest files listed last and the most recent files listed first.

## 2) Sort by Songname

- >> A-Z: Displays the song's metadata Title (i.e., the song title) and arranges it in the order of 1-9, A-Z.
- >> Z-A: Displays the song's metadata Title (i.e., the song title) and arranges it in the order of Z-A, 9-1.

### *Tips:*

- *The song order under the selected sorting type is the playback sequence in the sequential play mode.*
- *Y1 can only recognize meta info from MP3, M4A, FLAC, OGG, M4R files, as well as some APE files. This means that when you select "Sort by Songname," songs lacking meta info will have their titles displayed as "Unknown".*

## About Playlist

Y1 Player allows you to add, delete, rename playlists. Long press the key  in the playlist folder to pop up the shortcut menu, and then select the operation you want.

- **New Playlist**– add a new playlist, the default name of the new playlist is Playlist 6, 7...
- **Delete Playlist**– delete the current playlist.
- **Rename**– Rename the current playlist.

## About Search

Y1 Player allows you to search for a target track or album by part or all of the song title. Click "Search" and enter some or all of the song names in the pop-up input box to preview the search results above the input box. For more operations, please refer to the table below

Key	Action	Result
	Short press	backspace - deletes one character per press
	Long press	Continuous backspace
	Long press	Space - Enter a space each time press

Key	Action	Result
○	Swipe clockwise	Scroll down or right letter options
	Swipe Anticlockwise	Scroll up or left letter options
● OK	Short press	Enter the current character
	Long press	Long press for 3 seconds to power on / off Long press for 5 seconds to screen off
↩/⌘	Short press	Close the input box and return to search results
	Long press	Activate shortcut menu

In search results page, long press the key ↩/⌘ to pop up a shortcut menu, which allows you to select all or multiple tracks and add them to the target playlist.

# Audiobook

Key	Action	Result
	Swipe clockwise	Scroll down or right options
	Swipe Anticlockwise	Scroll up or left options
	Short press	Confirm selected book or option
	Long press	Long press for 3 seconds to power on / off Long press for 5 seconds to screen off
	Short press	Back to Prev-level
	Long press	Activate shortcut menu

*Note: Only books stored in the device's "Audiobooks" folder are recognized as audio books. Audiobooks stored elsewhere will be recognized as music.*

## About shortcut menu

Long press the key  in all folders under Audiobook to pop up a shortcut menu for file management:

- **MultiSelect**-- select music / file one by one.
- **All Select**-- one-click to select all book / files in the current folder.
- **Delete File**-- delete selected music.

## About Bookmart lists

In the audiobook playback window, long press the button  $\Rightarrow/\%$  to activate the bookmark function, and all created bookmarks are saved in this list.

Long press the button  $\Rightarrow/\%$  in the bookmark list to pop up a shortcut menu, allowing you to select all, multi select, and delete bookmarks.

## About Settings

*Note: this settings under Audiobook are only available for playing audiobooks.*

- **Shuffle**-- enable/disable shuffle mode
- **Repeat**-- enable/disable loop playback, Options include: List loop, Single loop, Off.
- **Speed**-- Adjust playback speed, Options include: Slow, Normal, Fast, Fastest.
- **Time off** -- Set stop playing time, Options include: Off, 10min, 20min, 30min, 60min.

## FAQ

### 1) How to add a bookmark

When playing the audiobooks, press the key  $\Rightarrow/\text{⌘}$  in the click wheel to pop up the dialog box, and then confirm to add to bookmark. All created bookmarks are preserved in Audiobook --- Bookmark lists.

### 2) Why didn't I find the audio books uploaded to the device?

To avoid confusion between music files and audiobooks, only books stored in "Audiobooks" folder will be recognized as audiobooks by default. Books stored elsewhere will be recognized as music. Therefore, make sure you upload the audiobooks to the audiobooks folder.

*Tips: encrypted audiobooks cannot be recognized, such as .m4b, aax file.*

### 3) Why can't my audiobooks and podcasts remember the last playback position, and every time I choose to play it from the folder, it starts from the beginning?

The resume playback function only applies to audiobooks and podcasts stored in the "Audiobooks" folder on the device. Audio files stored in other locations are defaulted to music files and will not utilize this feature.

## FM Radio

Key	Action	Result
	Short press	Prev channel
	Short press	Fast channel
	Short press	Back to prev-level
	Long press	Activate shortcut menu
	Short press	Play / Pause
	Swipe clockwise	Volume + / Scroll down or right options & frequency

- **Audio output** -- Change the audio output mode: Headset, Speaker. Short press  key to switch.
- **Record FM**-- Turn on radio recording to record your favorite radio and programs. All recordings will be stored in the "Recording files" folder by default."

## FAQ

1) Is wired headset required as antenna to use FM radio

Yes, you must connect a wired headset to start FM Radio

2) Is Bluetooth headphone available for radio?

Of course. It is recommended that you plug in a wired headset and start FM before connecting your Bluetooth headset.

Because the default audio output terminal of the player is the last connected device.

3) How to search for a station manually.

In the FM window, short press the key  to call up the manual channel search, and then slide the click wheel counterclockwise or clockwise to adjust the frequency to the best. To save the channel, short press  again.

4) Can I record FM radio and how?

Long press the key  to activate the shortcut menu, then select Record FM to start recording the current station. While recording, the upper left corner of the FM window displays a flashing recording logo. To save the recording, short press the key  and confirm to save.

# Photo

Key	Action	Result	
		In Folder and Photo List Window	In Picture Browse Window
	Short press	Prev folder or file	Prev picture
	Short press	Next folder or file	Next picture
	Short press	Back to pre-level	Back to pre-level
	Long press	Activate shortcut menu	Activate shortcut menu
	Swipe clockwise	Scroll down or right option and file	Switch down or right picture
	Swipe Anticlockwise	Scroll down or right options and file	Switch up or left picture
	Short press	Confirm selected option or file	Exit picture browsing
	Long press	Long press for 3 seconds to power on / off Long press for 5 seconds to screen off	

## About shortcut menu

In the folder and picture list window and picture browsing window, long press the key  to activate the shortcut menu. You can use it to:

-  **Delete** -- Delete the selected folder / file / picture.
